LOCAL IMPROVEMENT PLAN NO. 1/2003

RURAL AREA
(ROSENORT WEST AND RIVERSIDE EAST)

WATER LINE INSTALLATION

PROJECT

Local Improvement Plan No. 1/2003
Rural Area Water Lines

During the fall of 1998, the Pembina Valley Water Co-op did install and extend a main water line from Morris to Kane with the line proceeding on to Winkler, Manitoba. This water main is a 12 inch line from Morris to Lowe Farm and an 8 inch line to Kane. The Pembina Valley Water Co-op also installed an 8 inch water main from PTH 23 to Rosenort, Manitoba along PR 422. This line went to the water plant in Rosenort, Manitoba. When these lines were installed an additional main line was installed by the Pembina Valley Water Co-op from PR 422 to Riverside, Manitoba.

The Pembina Valley Water Co-op has granted permission to the Rural Municipality of Morris to undertake projects to connect to their water mains and provide service lines to the residents of the Rural Municipality of Morris.

The Rural Municipality of Morris had previously been in contact with P.F.R.A. office in Morden, Manitoba who provided the Municipality with assistance in designating proposed line extensions and finding that costs involved for servicing the Municipality were approximately \$8,000,000.00. Based on the assumed share formula between the Manitoba Water Services Board and P.F.R.A. and the R. M. of Morris, the Municipality would be responsible for approximately \$3,700,000.00. At that time, Council established a cost amount of \$8,000.00 per connection for persons wishing to connect to this water system. This amount of \$8,000.00 to connect to the water system allows the householder to be connect by the Municipality. Our connection fee of \$8,000.00 is divided into a \$1,500.00 initial payment, with the option of the remaining \$6,500.00 being paid once the connection project is completed or to have the \$6,500.00 placed as a Special Services debenture over a 10 year period against each of the properties that requests and receives connection to this water system.

All persons that connected to the water system were informed what the costs involved were and what the debenture aspect will mean to their property taxes.
